

COCKTAIL TABLE

Assembly Instructions | R1.013117

ASSEMBLY HARDWARE

A. Table top
B. Table legs

Standard

Fitted

Stretch

ASSEMBLY

1. Lay the table top (A) flat on the ground, with the brackets facing up.
2. Position the table legs (B) with the feet in the air. Swivel each pair of legs approximately 4 inches apart from each other. Note: Do NOT fully extend legs to form an X shape.
3. Connect the legs to the table by pushing the stationary legs into the 3-sided brackets. Swivel the free-moving legs into the open brackets until they lock into place.
4. Stand the table up on its legs and remove the umbrella cap.
5. For standard and fitted table covers, place the table cover over the table top and pull down the sides until it lies evenly.
6. For stretch table covers, slide the table cover over the table top and down over the legs. Once covered, place the table feet into the pockets at the bottom of the table cover.
7. If using an umbrella, place the cap into the table top.
8. Open lid and slide umbrella pole into the opening until it settles into place.
