ASSEMBLY HARDWARE

- A. Metal clamp
- B. Sanitizer bottle
- C. Dispenser
- D. Dispenser key

ASSEMBLY

- 1. Slide the key into the top of the dispenser and gently pull the top of the dispenser down. Pull the sanitizer bottle out to fill. Once filled, close the dispenser.
- 2. Attach the metal clamp, over the print, to either the left or right side of the tension display.
- 3. Make sure the metal clamp is secure on the tension frame.
- 4. Locate the screw hanging holes on the back of the dispenser.
- 5. Line the screw hanging holes up with the screws on the metal clamp and attach the dispenser to the metal clamp.
- 6. The dispenser is now ready to use on the tension display.
